e-Science & e-Infrastructure
 June 6-8, 2011 - Santander, Spain

Probably the best possibility to discuss about remote instrumentation and applications

WORKSHOP SCOPE
 The current edition of the Workshop focuses on post processing of experimental data in Grand Challenges e-Infrastructure systems. Handling of instrument output data is one of the major tasks (just after remote control of equipment of remote instrumentation systems). Due to complexity of this process, which can operate on huge amounts of data and consists of many stages, there is a need for sophisticated approaches. These cover many aspects of data processing and storage at different functional layers, from physical to application. Moreover, INGRID 2011 encompasses other Remote Instrumentation (RI) aspects related to: middleware architecture, high-speed networking, wireless Grid for acquisition devices and sensor networks, QoS provisioning for real-time control, measurement instrumentation and methodology. We do not forget about future trends concerning RI systems' development and actions related to standardization of remote instrumentation mechanisms.

ORGANIZERS

INGRID PROGRAMME

KEYNOTE SPEAKERS:

- Fabrizio Gagliardi (External Research Dir. EMEA, Microsoft)
- Francisco Colomer (Joint Institute for VLBI in Europe)
- EC Speaker
- e-IRG Speaker
- Roberto Pugliese (Sincrotrone Trieste S.c.p.A.)

SPECIAL SESSIONS:

- Kiwi Platform
- Integrating Instrumentation for Environment Monitoring
- Sensor Networks

SCHEDULE

Monday, June 6th, 2011

- 9:30 -10:00 Registration
- 10:00 -10:15 Welcome of conference chair
- 10:15 -11:00 Keynote talk: Francisco Colomer - NEXPRA5-evolving the use of e-Infrastructures in the Radio Astronomy Community
- 11:00 -11:30 Coffee break
- 11:30 -13:30 Special session - KIWI PLATFORM
- 13:30 -15:00 Lunch break
- 15:00 -16:00 Special session - SENSOR NETWORKS
- 16:00 -16:30 Coffee break
- 16:30 -17:30 Regular session
- 19:00 Dinner (at hotel)

Tuesday, June 7th, 2011

- 9:30 -11:00 Keynote talk - Fabrizio Gagliardi
- 11:00 -11:30 Coffee break
- 11:30 -13:30 Regular session
- 13:30 -15:00 Lunch break
- 15:00 -16:00 Regular session
- 16:00 -16:30 Coffee break
- 16:30 -18:00 Special session Integrating Instrumentation for Environment Monitoring
- 19:00 Excursion Conference Dinner

Wednesday, June 8th, 2011

- 10:00 -10:30 Invited talk EC Speaker (shared with Ibergrid)
- 11:00 -11:30 Coffee break
- 11:30 -13:30 Keynote talks (shared with Ibergrid): Ullrich session Distributed research Infrastructures
- 13:00 -15:00 Lunch break
- 15:00 -15:15 Farewell

WHY YOU SHOULD JOIN US?

- content related workshop programme
- interesting subjects
- place worth to visit
